

Off Leash Study

The Green Dog Advisory Committee is asking your help in gathering some statistics on park use and off leash hours. The statistics will help us evaluate the effectiveness of the Green Dog program. These statistics will also help evaluate at what times additional (or fewer) off leash hours are needed. If you are not a dog owner leave the 'Your Regular Walk' line blank.

What to Do

Visit your local park and count the dogs for three ten minute periods. Pick one time when you regularly go to the park during off leash hours. Pick two other times that you do not normally go to the park, one during off leash hours, the second during hours that off leash activity is prohibited.

During the 10 minute period count the number of different dogs you see. Count how many are on leash and how many are off leash. Do not count your dog(s). Write down your answers and return this sheet to the person who handed it to you by 22 December 2005. You can mail it to

Erin Chute Gallentine
Town Hall
333 Washington St.
Brookline, MA 02445

erin_chute@town.brookline.ma.us

Feel free to make copies for your friends and turn them in as well, the more data we get the better. If you visit multiple parks please use one sheet for each park.
